## Overview

This PDF bundles the primary Community Engine documentation for content\_moderators. Source of truth remains the repository markdown; diagrams should be re-rendered before export.

## Content Moderator Guide

Documentation for community volunteers who review reports, moderate content, and support platform safety.

### Moderation Resources

- Community Social System - Moderation concepts and workflows
- Security Protection System - Safety features and protections

### Safety & Escalation

- Escalation Matrix - When to escalate decisions

### Cooperative Moderation

Content moderation in Better Together follows democratic principles, emphasizing community standards, transparent processes, and accountability to community members.
