## Overview

This PDF bundles the primary Community Engine documentation for support\_staff. Source of truth remains the repository markdown; diagrams should be re-rendered before export.

## Support Staff Guide

Documentation for team members who help users with platform issues, onboarding, and general assistance.

### User Assistance

- User Onboarding - Helping new users get started
- User Guide - Common tasks and platform overview
- Help Banners - In-app help system

### Procedures and Escalation

- Escalation Procedures - When and how to escalate issues

### Understanding the Platform

Support staff should understand Better Together’s cooperative principles to help users engage effectively with the democratic governance model and community-led features.
